

MAKERBOT FUNDAMENTALS WORKSHOP

MAKERBOT® LEARNING

MAKERWIZ
INSPIRING BOUNDLESS CREATIVITY

MAKERBOT® FUNDAMENTALS WORKSHOP

This workshop is an interactive exploration of the MakerBot 3D Ecosystem. The three and a half hour course is taught by experts in 3D printing with the intent of getting you up to speed on your MakerBot products.

AFTER THIS COURSE, YOU WILL BE ABLE TO:

- Set up and use a MakerBot Replicator 3D Printer
- Gain insight into creative applications for 3D printing
- Use MakerBot apps to their fullest extent
- Understand the “Three Ways to Make” and options available for 3D design
- Successfully prepare and print a 3D model
- Properly maintain your MakerBot Replicator 3D Printer

WHERE IS THE SESSION HELD?

This course can be held at your location by request. Contact your sales person to discuss logistics. Additional fees may be included for extensive travel.

WHO SHOULD ATTEND?

A MakerBot Fundamentals Workshop is great for anyone looking to quickly get started using their 3D Printers and explore the potential for 3D printing in their organization.

WHAT WILL BE COVERED?

Through a series of hands-on sessions and brief lectures, you'll learn everything you need to get the most out of a MakerBot Replicator® 3D Printer, as well as the ins and outs of the MakerBot 3D printing community.
